

PRESS RELEASE

ALTAIR & ALANG LAUNCHES CLEARVUE

London, UK – 16 September 2025

Altair & Alang, a boutique management consulting firm with a global footprint, serving clients across EMEA, APAC, and the Americas, is proud to announce the launch of Clearvue:

www.altairalang.com/clearvue.

Clearvue is a cloud-based analytics platform that transforms raw CPMI-IOSCO Public Quantitative Disclosures (PQDs) from Central Counterparties (CCPs) into actionable and intelligent insights for all market participants.

Every two-months after the quarter-end CCPs open their books. Most market participants – from clearing houses, clearing members to regulators – know the challenge: collecting transparent, well-structured PQD data can often be time-consuming, complex, and resource-intensive.

The solution is Clearvue. A powerful, intuitive platform with coverage of 63+ global CCP PQDs. Clearvue transforms complex public disclosures into a clean, accessible, and easy-to-navigate tool for market participants to leverage PQD insights. Users can track, compare and analyse metrics such as Initial Margin, Default Fund Contributions, Liquidity Coverage, Back-Testing Results, and much more all in one place.

Key benefits of Clearvue:

- All 205+ PQD disclosures ready for analysis.
- Fully cleansed and structured CCP PQD data.
- Intuitive GUI/filters for quick comparisons across CCPs, and time periods.
- Readily accessible insights for risk management and regulatory analysis.
- Export charts to quickly share insights with stakeholders.
- Save custom chart views based on your own filters/preferences.
- Available to access on both desktop and mobile devices.

Whether you are in risk management, trading, regulation or executive oversight, Clearvue puts clarity and insight at your fingertips – turning PQD data into a strategic advantage. Market participants can seamlessly explore PQD data without the pain of manual downloads and formatting. We have done the hard work, so you can spend more time exploring the

ABOUT US

Altair & Alang is a boutique UK-based management consulting firm with a global footprint, serving clients across EMEA, APAC, and the Americas. We specialise in business intelligence, financial strategy, and actionable insights tailored to our client's needs. We partner with clients to uncover data-driven opportunities, optimise financial performance, and empower strategic decision-making.

While our roots are in the financial services and capital markets, our strength lies in data and analytics that translate across all industries. We bring deep functional expertise to a wide range of sectors, including fintech, insurance and cybersecurity. Whether optimising operating models, designing scalable data strategies, or enhancing regulatory insight, we help clients make smarter decisions and deliver measurable results in dynamic environments.

Our deliverables combine deep industry knowledge with advanced analytics to deliver impactful solutions that drive measurable results and long-term success.
